SECTION 10.18  MLU (MIXED LAND USE) ZONE

A. PURPOSE: The purpose of the Mixed Land Use (MLU) Zone is to provide for the combining of offices, commercial uses, retail and service uses, and residential uses within a planned development. Such development is intended to be designed to provide for a related group of activities which are functionally integrated relative to land uses, vehicular and pedestrian circulation, and the arrangement of structures. In addition, the intent of the zone is to promote flexibility in design and planned diversification in the relationships between location of and types of uses and structures; promote the advantages of large scale site planning for community development through the efficient use of land, facilitating a more economic arrangement of buildings, circulation systems, land uses, and utilities; preserve, to the greatest extent possible, the existing landscape features and amenities, and to utilize such features in a harmonious fashion; provide for more usable and suitably located open space facilities and common facilities than would otherwise be provided under conventional land development procedures, but always with the intention of furthering the public health, safety, and general welfare.

B. GENERAL: A Mixed Land Use Zone may be permitted provided that all conditions or provisions of this section of the ordinance, the applicable requirements of the subdivision regulations, and any additional requirements as may be determined necessary to provide for the most efficient layout of the MLU Zone and its proper integration with the surrounding development are met; and a public hearing is held on the MLU application.

C. APPLICATION AND PROCESSING: Applications for a Mixed Land Use Zone shall be processed as follows in two stages:

1. Stage I - Except as provided in Section 17.0, I., applications for a map amendment to zone an area for Mixed Land Use (MLU) shall be accompanied by a development plan, in accordance with the Stage I Plan Requirements, provided for within Section 9.20, A., of this ordinance. If an area, however, is currently zoned MLU, the submission of a Stage I Development Plan for review by the planning commission and the legislative body, shall not be required until the area is proposed to be developed.

   a. The planning commission shall hold a public hearing on the proposed application (Stage I Development Plan, and where applicable, the zoning map amendment), in accordance with the requirements of KRS Chapter 424, and review said application with regard to its compliance with the stated purpose of the MLU Zone, the required elements of the Stage I Development Plan and other applicable requirements of this section. Written notice of the
hearing shall be given to the owner of every parcel of property adjoining the property encompassed within the Stage I Development Plan as provided in and in accordance with the provisions of Section 17.0, D., 2. Upon holding such hearing, the planning commission shall make one of the following recommendations to the legislative body: approval, approval with conditions, or disapproval. The planning commission shall submit, along with their recommendations, a copy of the Stage I Plan and the bases for their recommendation.

b. The legislative body shall, within ninety (90) days after receiving the recommendations of the planning commission, review said recommendations and take action to approve, or disapprove said C-PUD application. Such action may incorporate any conditions imposed by the planning commission. However, should the legislative body take action to impose less stringent conditions than were reviewed and considered by the planning commission, then said conditions shall be resubmitted to the planning commission for further review and recommendation, in accordance with Subsection C., 1., a., above.

The legislative body shall forward a copy of the approved plan to the planning commission for further processing, in accordance with the requirements for Stage II Development Plan and Record Plat.

Zoning Map Amendment - Upon approval of the MLU Zone, the official zoning map shall be amended by adding the area as identified in the application or as shown on the Stage I approved plan.

Except for the manner of submission and processing, the subdivision regulations may be waived, where applicable, and the requirements of Section 9.20, B. and C., shall be substituted therefore. Those requirements not specifically waived by the planning commission shall conform with the subdivision regulations.

a. The planning commission, or its duly authorized representative, shall review the submitted Stage II Development Plan with regard to its compliance with the required elements of Section 9.20, B., for Stage II plans, other applicable elements of this ordinance and other applicable regulations, and its conformity with the Stage I
approved plan. Minor adjustments from the Stage I approved plan may be permitted, provided that the adjustments do not change land uses, increase overall density, significantly alter circulation patterns (vehicular and pedestrian), or decrease the amount and/or usability of open space or recreation areas, or conflict with other applicable requirements of this ordinance (e.g., parking requirements). The planning commission, or its duly authorized representative, upon completion of its review of the proposed Stage II Development Plan, shall make one of the following recommendations to the legislative body: approval, approval with conditions, or disapproval. The planning commission, or its duly authorized representative, shall submit, along with their recommendations, a copy of the Stage II Development Plan and the bases for their recommendation.

b. The legislative body shall, within forty-five (45) days after receiving the recommendations of the planning commission, or its duly authorized representative, review said recommendations and take action to approve or disapprove the Stage II Development Plan. Such action may incorporate any conditions imposed by the planning commission, or its duly authorized representative. However, should the legislative body take action to impose different conditions than were reviewed and considered by the planning commission, or its duly authorized representative, then said conditions shall be resubmitted to the planning commission, or its duly authorized representative, for further review and recommendation, in accordance with Subsection C., 2., a., above.

Upon approval of the Stage II Development Plan, by the legislative body, a copy of said plan shall be forwarded to: (1) the zoning administrator, who shall grant permits only in accordance with the Stage II approved plan and other regulations, as may be required by this ordinance; and (2) the planning commission, or its duly authorized representative.

4. Nature and extent of the proposed uses in relation to the unique characteristics of the site; the current or anticipated need for such use(s) and the specific size and locale of the market area from which the specific uses of the site will draw or serve.

Extent to which all necessary public utilities and facilities are available to service the development, including police and fire protection, water and sewer services, and other services normally provided within the area. Where deficiencies exist, improvements that would correct such deficiencies may be considered.

2. Substantial construction has not been initiated within a period of twelve (12) consecutive months from the date of approval of the Stage II Plan by the planning commission; provided that an extension may be permitted...
upon approval of the legislative body, or its duly authorized representative, if sufficient proof can be demonstrated that the construction was delayed due to circumstances beyond the applicant's control, and that prevailing conditions have not changed appreciably to render the Stage I approved plan obsolete. The amount of construction constituting initiating substantial construction shall be as approved in the Stage II approved plan.
